BRILLIANT ADDRESS BY REVEREND GRAHAM.

St. Rose Church Filled to Hear His Interesting
Lecture on Reason and Religion. Eloquent
Orator and Logical Reasoner.

If there were more men in the world endowed with the measure of good sense possessed by Rev. Graham who lectured at St. Rose's church, last night, there would not even be imaginary conflict between reason and religion, or science and religion, and there would be a great deal more reason for religion.

Rev. Graham, who has an attractive personality, a mobile, forceful face, and a perfect enunciation, put himself instantaneously in harmony with his audience by asking it to follow him for the evening, and not to ask themselves questions, why this and why that, lost the train of thought should sweep by the junction, and leave them without a decision.

The Reverend Father began his lecture proper by asking: "What is religion?" Some men say it is a thing only for women and children. Ninety-nine out of every hundred men need it more than women and children. We men know too much. Newspapers, and monthly magazines publish articles, and opinions concerning religion, which involve the defining of it, so that the majority do not know what religion is.

To illustrate this point, the lecturer told the story of the fellow who overheard an argument between a democrat and a republican, asked the latter what republican meant, and after many efforts to give a definition, the republican replied: "Oh, everybody knows what that is."

Proceeding, Rev. Graham said that not one person in 10,000 knew the meaning of religion, and that if they did, they never would deny it. Many, he thought, did not want to know its meaning, because they feared the

But maybe it all came by chance. Nothing came by chance—that is simply the unexpected. Chance never made the world because chance never had a chance. You ask about eggs. Which came first—chicken or egg—egg or chicken? If chicken, where did it come from? This takes us logically back to the necessity of a first cause, and we ask what is the first motor. The earth, sun and planets are spinning about rapidly. Astronomers have demonstrated this. If they are all in motion, who put them in motion? Somewhere there must be a first movement. But you ask about evolution. Evolution pre-supposes everything. If you want to argue, you must prove everything. Put everything out of your mind. Imagine yourself outside this world. You are looking into a void. Do you see anything? "No," you reply. "There never will be anything—nothing can come from nothing." Look again. You see just an atom. All things must have come from that, that from which everything material is made. Is that

atom standing still? If so, it will stand still forever. If it moves, there must have been a motor. Who started it? What was the first cause of the effect? Common sense picks us up there. In the remotest parts of the world, in darkest Africa, no matter where you go, the people recognize there is a first cause, and that cause they call God, or Gods, and I believe it more creditable to believe in many Gods than to deny there is a God. The first is but a wrong conclusion without denying there is a cause for the effect.

But this average man too whom I am talking, asks if there is not some secret cause. Electricity which comes from the earth, is used, goes back again into the earth, and no one can explain it, no one has ever seen it. Concerning it, steam, and other manifestations the denier cannot and a place where he can place his foot on even speculation. I say to the average man, you cannot give what you have not. The teacher cannot impart that to others which he himself has not. Every effect must have a cause, and the effect is controlled by the cause. Look around you, and see beauty, justice, order. More specifically, there is life in the world. A stone has no life. The hard seed of a plant when it is put in the ground will grow. What mysterious vital force is it that makes it grow? Must not the cause which can give life have life? Must not the intellect of man by which he subdues, by which he measures the sun, and how long it will take a snail to travel to the moon, on a moonbeam, have come from a cause with intellect. But man has greater than intellect, he is free. If he were not, we would have no right to punish murder. The first cause had freedom. The eye and the ear prove it. That first cause was life, intelligence, free will and personality, and as a result you have all those attributes from the first cause God. You may call Him Infinite, Inscrutable, but common sense goes step by step up to God, without even using the scripture. The grandest and deepest things in religion can be explained in language so simple that even the child can grasp and under-

stand them.

Having found God, we want to find the man. Man is composed of body and soul. You never saw the soul, yet like electricity, you know it exists, because you have the effect. We want to know what this soul is. Is it different from the body? It is. From babyhood to old age, in the individual, the particles which make up the body change, but there is a something which remains the same all the time—the soul. But that may not be clear to everybody. Let us take the next step—thought. Soul is spirit. Why do we call it that? Because we want a name for it. What does thought do? Think of a horse. You see him in your mind—some particular horse. What is it you see? Material. Take a triangle. With the thought of a triangle, you draw an image of that geometrical figure. If I ask you to draw a many sided figure, you have the idea, but not the image. I ask you to draw a hundred sided figure. You cannot do it without counting. The idea is clear, but the image is confused. If I say God, you know what I mean, but you have no image. So the soul has the idea; imagination is the material part of the brain. The soul is distinct from matter.

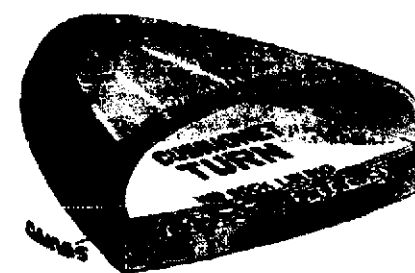

The man who has been studying hard gets weary. The idea in his soul wants to form an image, but the brain material is tired. The soul never gets tired. We long for happiness, and knowledge. Can you imagine matter longing for happiness? Scientists tell us we are a bundle of oxygen, hydrogen and carbon. Can you imagine one bundle of that combination meeting another of like constituency on the street and saying: "How do you do?" Can you imagine a locomotive pulling up to a junction and asking: "Shall I go to New York or Chicago?" There must be a director, a first cause. So with our bodies. They are not machines which will go without an engineer, and the soul is that which rules them. Is it not plain therefore that the soul is different from the body.

The physician says, I have dissected many bodies, but never have found a soul. Because he did not find it is no

argument it was not there. The scientist dissects the battery, and finds no electricity. He puts battery back as he found it, and there again is that unseen force. If the physician could put the dead man back just as he was, perhaps his soul would come back. The soul uses the brain. If your tongue is swollen, the soul cannot talk; if the eye is blind, the soul cannot see through it. Give an old

man, with blind eye socket, the eye of a youth, and the soul will see through it. Matter changes, but the soul never. When mortal man is dead, life manifestations of the soul through the senses cease. You ask me why the soul does not come to an end. Thought has no length, depth or color. Would you feel a pin prick, or the

Sore Throat Epidemic, Mostly
Among Children—News of the
South Side Given in Brief
Form—Personal Notes.

Glasgow, a well known citizen, passed away at 2.00 o'clock Sunday morning, death being due to tuberculosis, after an illness of eight weeks duration. Mr. Glasgow died at the home of Geo. Brammer, at 622 east Pikes street, where he had made his home for a number of years. His wife died seven years ago, and his only daughter, aged 14 years, has been making her home with relatives in New Philadelphia, O. The deceased was a watchmaker by trade, and worked for a number of years as a sales agent for a jewelry store, but for the last year and a half, until his recent illness, conducted the jewelry department at Mill's pharmacy, on south Main street. He was also at one time, a member of Banner Tent, No. 256, K. of T. M.

The funeral services were held Sunday afternoon at 2 o'clock this afternoon, Rev. Mr. Garner officiating. Interment was made in Woodlawn cemetery.

Lima Man's Invention.
The interlocking distance switch, an invention by Mr. A. P. O'Dell, of 121 Kibby street, was inspected Sunday by the supervisors of the T. & O. C. railroad at Findlay and approved. The convenience of this switch lies in the fact that trains can run onto a sidetrack and out again without stopping, thus saving time.

Rheumatism Is Not a Skin Disease.

Most people have an idea that rheumatism is contracted like a cold, that the damp, chilly air penetrates the muscles and joints and causes the terrible aches and pains, or that it is something like a skin disease to be rubbed away with liniment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true cause of Rheumatism, which are internal and not external.

Urinemics, plasters and rubbing will sometimes reduce the inflammation and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood, and the Uric Acid poison is neutralized, the sluggish circulation stimulated and quickened, and soon the system is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.

S. S. S. is a harmless vegetable remedy, unequalled as a blood purifier and an invigorating, pleasant tonic. Book on Rheumatism will be mailed free.

The meeting of the Endeavors at the south side Church of Christ, last night, took in both the Wayne street congregation and the South Side, and the church was filled to overflowing.

Church Throat Epidemic.
There seems to be an abundance of throat disease on the south side. By some it is called diphtheria, and tonsillitis by others, while some say it is just common, every day, old-fashioned sore throat; but at the same time they are warning neighbors to stay away. Following are a few cases reported yesterday: Eddie Hall, at the home of Mr. and Mrs. Jacob Risse, west Kibby street, very sick with fever and sore throat; Dorcas Whaley, at the home of J. B. Kennedy, east Second street; Mrs. E. D. Arnold, east Second street, very sore throat and high fever; has been ill several days; two children of Mr. and Mrs. Stout, at the J. W. Woolery home, on Forest avenue; two children by the name of Boop, on Third street, severe cases of sore throat; two children of Print Downing, of west Kibby street, high fever and sore throat; several children in Solerville are reported ill from same malady, and two children on south Metcalf street, near railroad.

Chamberlain's Cough Remedy.
No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also a certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance, and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration, it is not surprising that people in foreign lands, as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. For sale by all drug stores.

Two Hundred Girls Are Carrying
Messages for the Western
Union Company.

Boston, Mass., Oct. 26.—Still locked out from service, as messengers by the American District Co., the 200 or more boys discharged last Friday, today witnessed an increase in the force of girls now doing the work. It was estimated this afternoon that more than 200 girls were carrying messages. The boys' formed groups at various points near the Western Union office on State street, but no acts of violence such as were reported last night were repeated.

Lockjaw or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by penetration caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received. Pain Balm is an antiseptic and causes cuts, bruises and like injuries to heal without maturation and in one-third the time required by the usual treatment. It is for sale by all druggists.

Molly Hunt's Temptation

[Continued.]
"And now, Mistress Molly, I must bid you adieu. Your father, your mother, yourself, have merited the thanks of the Continental congress for harboring me, and you especially deserve my thanks for your kindness while I have been in hiding under your roof."
"Do you go direct to the Americans?" she asked, putting up a pair of tempting lips, inviting a farewell kiss.
"No. I go to the house of that Tory Andrew Moncrief to stop one night."
"And, pray, what will you do that for?" asked the girl, blanching.
"Margaret Moncrief, his daughter, is one of us," he replied. "I must see her before I return. She and I are warm friends."
The girl drew away. Instinct told her that when a man risked his life to meet a woman it was not friendship that led him to do so. The man called a goodbye, and they had parted.

The next night a party of British soldiers appeared on the place of Andrew Moncrief and asked if a stranger had stopped there for the night. On being told that no one was there they searched the house, then the outhouses and at last came upon Lieutenant Lionel Otis hidden in the haymow. He was searched, and plans of the British fortifications at Trenton, with information as to the strength of the force defending them, were found concealed in his clothing. He was taken to the house of Farmer Hunt and led into the kitchen, where Molly was cooking supper. When she saw him she turned deadly pale.

"Good morning, Mistress Molly," said the young man. "We meet again very soon. Some one has given me away."
Molly staggered, without a word, out of the room, turning her back to the soldiers that they should not see her face.
"Strange," said Otis, "that she should be so affected. But perhaps she knows the fate of a spy."

It was late when the prisoner was taken to the farm, and his guard concluded to keep him there over night. A sergeant in command went to the second floor and selected a room with but one window and one door. Into this room he thrust Lieutenant Otis, placing a man at the door and one underneath the window. Then the rest of the guard lay down on the kitchen floor before the great stone fireplace and went to sleep.

At midnight the sentinel below stood leaning against the house, his hands grasping his musket, his hat over his eyes. Presently he sat down on the ground, then fell over on his back. He was asleep. Suddenly he felt his gun slip from his hands and, looking up, saw Molly bending over him, holding a long knife, its point within an inch of his heart. He thought her insane. So wild looking was she.

"What do you want?" he asked.
Molly did not answer, but, keeping the point of the knife as near his heart as possible and her eye fixed on him, she drew a little away till suddenly she raised the musket and, pulling up the firelock, pointed it at him instead of the knife. Then she told him in a whisper to go before her, indicating the direction by pointing. Marching him to the house of a patriot whom she well knew she could depend on, the two locked him up in the barn, and the man stood guard while Molly returned. Going at once to an out-house, she took out a ladder, raised it to Otis' window and, mounting, gave a faint tap. Otis' heart jumped within him as he went softly to the window and cautiously raised the latch.

"Come," said Molly, and she descended the ladder.

In the barn two horses stood saddled. Molly led the way with one, Otis following with the other, through a field to the rear, and, making a circuit, they struck the road far from the house.

"Molly," said Otis, his voice trembling with emotion, "I owe you every thing. If I get clear some day I will return to thank you. If a life of devotion will help to repay—"

"Oh, hush!"

"Molly, listen to me. Perhaps you thought that there was more than friendship between me and Margaret Moncrief. There is not. She is working with me and was to give me war secrets. True, her father is a Tory and must have got wind of my being on the place."

"Oh, no, no! You were informed on by a wretch, one unworthy to live a minute by your side!"

"Who?"

She was riding at a gallop, but she dropped her reins on her horse's neck and covered her face with her hands.

"Molly, sweetheart, never mind who gave me away. You have rescued me, and my life belongs to you. It will be a willing servitude, for my heart is also your slave."

"No, no, no!" wailed the girl. "I am unworthy of you. I thought you loved Margaret Moncrief and were going from me to her. I betrayed you. I am a selfish, fiendish creature. I put you in jeopardy of the halter, and the only hope I have for peace of mind is that I have undone what I have done."

She turned her horse's head and went galloping back in the direction from which she had come. Otis reined in his horse and sat looking after her. "Molly!" he called. "Molly! I forgive you."

There was no reply except the dimming sound of her horse's hoofs as she drew farther from him.

After Cornwallis' surrender Otis sought out Hunt's farm, hoping to find Molly, but he was told that she had fled away and died. Her doctors said that she suffered from some mental strain that sapped her vitality.

MEXICAN LAW COMPLIED WITH.

Body of Naval Captain Will Be
Brought Back to America
by Cruiser.

San Diego, Cal., Oct. 26.—The United States training ship Mohican, just arrived on a cruise which will be extended as far south as the United States coaling station at Pochillienque Bay, has orders from Washington, accompanied by a permit from the City of Mexico, to take up the remains of Captain W. W. Reisinger, and bring them to San Diego, whence they will be shipped to Washington.

Capt. Reisinger, while captain of the Philadelphia, died on board when the cruiser was at Magdalena Bay, on her way from Panama to that port. Under the Mexican law, the body had to be buried there, and could not be removed for two years. This period will have elapsed since the death and burial when the Mohican is at Maguelena Bay on her way north, and the remains can then be brought away.

ELKINS GETTING BETTER.

Philadelphia, Oct. 26.—The condition of Wm. L. Elkins, the multi-millionaire, who is dangerously ill at his home here, is reported today, to be slightly improved. The report that surgeons had found it necessary to amputate the patient's leg so as to check the spread of gangrene, was positively denied by members of the family.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain as long as possible ones youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair. The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as Dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send for sample for sample to The Herpicide Co., Detroit, Mich.

THE WEATHER.

Washington, D. C., Oct. 26.—For

Ohio, fair tonight and Tuesday; cooler

in extreme southwest portion tonight.

Vote right. Hanna may not like it,

but better men will.

To hear Mark Hanna talk, one

would think that he is Old Prosperity

himself.

The man who does not vote the Han-

naized republican ticket this year will

be proud of it next.

A vote for the democratic ticket this

year is a vote on the side of manlier

and better methods in office.

Dear Herrick! Even the Republican

organ seems to have forgotten that he

is running for anything.

The citizens of Ohio, regardless of

politics, cannot afford to elect either a

republican governor or legislator.

Senator Hanna does not care who

votes the republican wagon so he

unopposes all the official honors and

plunder.

The farmer who votes for Herrick

and Hanna this year should not com-

plain but soon he is forced to pay dou-
ble tax.

The last republican legislature
passed the act of legislative graft-
ing. Should a republican legislature
be elected this year, all former legisla-
tive corruption would be totally
obliterated.

Some complaint is made that Her-
rick advances no ideas. Why should
he. If he is not elected there will be
no call for them. If he is, Mark Han-
na has the contract in advance to fur-
nish them.

It is conceded on all hands that the
people of Ohio are getting the worst
of the deal from the republican bosses,
their superserviceable state officials
and jobbing legislatures. Only one
sensible thing remains to them—to
vote the republican party out of
power.

Funny isn't it, that if the people of
Ohio should defeat Mark Hanna for
the senate, as they evidently intend
to do, that our whole system of pros-
perity would be destroyed. Suppose
that he is elected and should then fall
down and break his neck, we would be
without a senator and prosperity both.
The best method is to compromise the
matter. Elect Clarke to the senate
and take the chance of Hanna's defeat
destroying prosperity. Both ends of
the propositions would be safe.

The Chicago Record-Herald's Michi-
gan correspondent, sends up a wall
because the "Wolverine" state has no
political boss, since the passing of
Pinegre and McMillen. He should
rest his soul in peace. The November
election in Ohio, is not far distant,
and when that event is over, the self
constituted boss of Ohio, will be open
for a situation. Just now, he is a
bear, because there is a possibility—
strong one—of Tom Johnson's elec-
tion and should that come to pass,
Uncle Mark can easily turn wolf.

THEY ARE MERELY CONTUMA-
CIOUS.

Up to this date, there has been no
attempt made by Mr. Hanna, or Col.
Herrick or any of the managers and
leaders of their campaign to answer
the indictments drawn against the re-
publican state management for the
past ten years.

The lax observation of loosely
drawn laws with reference to tax-
ation, which has imposed double and
triple tax burdens on the middle class,
the real bone and sinew of the state,
is something entirely beneath the no-
tice of the modern republican states-
men, and they feel insulted when their
attention is called to it, or a reason
demanded why the wrong should not
be eradicated and a just system sub-
stituted for it.

This is all the democratic platform
and candidates call for and for thus
exposing the cause of justice and
the people. Senator Hanna and his
stetites denounce them as dema-
gogues, anarchists and the like. They
may believe that this is argument,
but even that is doubtful.

They have no argument to offer
against the democratic position, and
there being nothing else handy but
black-guardism and vituperation, they
must hurl that or retire from the
forum. But the impression is rapidly
growing that the day for this kind of
campaigning has passed, as it should.

WHY DID HERRICK RESIGN.

Just why Col. Myron T. Herrick
should so ostentatiously resign his
railroad and other corporation direc-
torships, and have the fact announced
from the house-tops and through all
the Hanna newspapers, is hard to un-
derstand in one sense, and easy in an-
other.

What was wrong in his holding
these positions? Has anybody under-
taken to tell? Can anybody tell?

Was there anything wrong?

If there was nothing wrong, why re-
sign at all? Does the resignation im-
ply that Col. Herrick was engaged in a
bad business?

The fact is that Col. Herrick was
one of the factors in the J. P. Morgan
syndicate, and the coal and railway
trust extending into Ohio. And he
still is, notwithstanding his pretended
resignation.

About the only thing that Col. Her-
rick has done is to confess that he is
ashamed to let the people of Ohio
know the kind of business from which
he has amassed his millions.

If Col. Herrick is ashamed of him-
self in this respect, as his actions in-
dicate that he is, what right has he
to expect other than that the voters
of Ohio will also be ashamed of him
when they go to the polls?

And the chances are that a major-
ity of them will be.

decided to admit them to bail in the
sum of \$10,000 each which they have
not yet given.

MARKETS.

New York, Oct. 26.—The week open-
ed on the stock exchange with trad-
ing in small volume, but showing a
general degree of firmness. Improve-
ments, however, were very slight and
more generally confined to the rail-
road list while Amalgamated showed
but little reflection of the excited and
buoyant market for raw copper
abroad.

In the last upward movement Amal-
gamated rose an extreme 2 1/2 and U.

HAIL AND SNOW AT BUFFALO.

Buffalo, N. Y., Oct. 26.—Hail and
wet snow has been falling here since
daylight but disappears almost as soon
as it falls. Snow fell at a number of
places in the state yesterday, the first
of the season.

The announcement is made that ef-
fective November 1, the Clover Leaf
railroad will withdraw from member-
ship in the Interchange Mileage Asso-

ONE STABBED,
SIX INJURED.

Gala Night in Tenderloin District.
Fight Followed a Drunken
Quarrel.

Cleveland, O., Oct. 26.—One man
was fatally stabbed and six others
badly injured in a free for all fight in
which knives and clubs played a
prominent part, at No. 8 University
Court last night. The fight followed
a drunken quarrel, and at its con-
clusion a half dozen of the partici-
pants were laid out on the sidewalk.
Peter was stabbed in the abdomen and
cannot live. The other injured men
received numerous stabs and bruises
but will probably all recover.

The police have made a number of
arrests in connection with the affair.

STILL PLAYING ARMY.

Fort Riley, Kans., Oct. 26.—Col.
Steever of the Fourth cavalry, was
given command today of a small force
defending Fort Riley against superior
numbers under Gen. Carr and ordered
to hold his place at all hazard. Col.
Steever's position at Fort Riley was
by the terms of the military problem
made vital to the Blue force in order
that a junction might be made be-
tween it and a hypothetical main
body. Gen. Carr's force was designed
to prevent the junction of the Blue
armies and in order to prevent this
his object was to carry the position at
Fort Riley by assault.

The problem resulted in a spirited
contest and was highly successful.

HIS CONDITION SERIOUS.

St. Louis, Mo., Oct. 26.—Conflicting
reports of the condition of James L.
Blair, former general counsel of the
World's Fair, who is seriously ill at
his home in the suburbs, came out to-
day. Dr. Weir resumed his vigil this
morning, relieving Dr. Homan, who
had been on watch all night. Accord-
ing to physicians reports, Mr. Blair
passed a comfortable night and his
condition was improving. Other
visitors to the house, state that the
patient was in a very dangerous condi-
tion, and that the physicians were
making extraordinary efforts to keep
him alive.

THE STAGE.

Theodore Kremer's latest effort, "A
Deeper Chance," will be presented
at the Faurot opera house tonight
with an elaborate production and an
exceptionally strong cast.

The play is based upon the trou-
blesome times of the Biddle brothers, in
and around Pittsburgh. No individuals
are presented, only types. Beginning
with the arrest, imprisonment, escape
and final death of the villains; the au-
thor shows the villain in a new garb,
with great hypnotic power over the
gentler sex. The action of the play
is humanly intense, full of heart in-
terest, and abounding with great sur-
prises.

The production is said to be one of
the most elaborate seen here in
many a day, and contains some new
novelties, including a snow-storm
scene, produced by a new mechanical
device which has never been used on
any stage before and which causes
much comment.

—O—

In the superb scenic production of
the comedy drama, "Sweet Clover,"
the patrons of the theatre in this city
will see one of the prettiest plays of
sentiment ever given to the stage in
recent years. The following is a por-
tion of the dialogue between the prin-
cipal characters, "Jerome Holcombe,"
the picturesque old farmer, and his
daughter "Lois."

"Place your heel on a clover blossom,
no matter how tenderly the dew
falls on it afterwards, it can't never
raise its head so cheerily again. I'm
your broken slip of clover, Daddy, and
if I live at all, it's because you love me."

"There's nothing in life like the hap-
piness love brings, and if it comes to
a woman's heart, and she shuts it out,
no matter how she tries to fill her
life, to be faithful to her duty, to for-
get, the old dream will not be ban-
ished, but will return again and again
to haunt her with its sweetness."

"Sweet Clover" will come to the
Faurot opera house on Wednesday
evening.

ENGLISH COMMISSION IS VISITING YALE.

New Haven, Conn., Oct. 26.—The English commission, headed by Alford Mosely, for inquiring into the educational system of the United States in its bearing upon national commerce and industry, arrived here today. The afternoon was spent in visiting various departments of Yale University. It is said that the party will leave this evening for Cambridge, Mass., to visit Harvard.

HER SKULL
CRUSHED IN.Mrs. William Ebner, an Aged Woman,
Killed by a Switch Engine.Was Picking Up Coal Along L. E. & W. and
C. H. & D. Tracks—Had Just Been Warned
by the Crossing Watchman at
Kibby Street.

Mrs. William Ebner, an aged woman, whose husband is employed at the Schueth's tannery, was instantly killed early this morning, by being struck by a switch engine. Her skull was crushed and one arm and hand were considerably mangled.

The accident occurred at a point about 500 feet north of the Kibby street crossing. Mrs. Ebner, after her husband had left home to go to his work, went out upon the L. E. & W. and C. H. & D. tracks to pick up coal. She was warned by watchman Thos. Cavanaugh at the Kibby street crossing that she was in danger of being run down by a train, and in reply to his warning, she said: "I don't believe God would kill me by the cars."

A few minutes later she stepped in front of an L. E. & W. switch engine, and was instantly killed.

The remains were identified by some of the residents of the vicinity of the accident and the body was re-posed in the coffin. No arrangements for the funeral have yet been made.

The unfortunate woman was 85 years of age, and lived with her husband in a small dwelling house north of the Star Iron works.

The switch engine by which the aged woman was killed, was in charge of yard conductor Henry Eberswine. The crew was in no manner to blame for the accident.

KANSAS HAS
GREAT CALLOn Oil Men of the East in These Days
of Hunting Production.Independence, the Producing Center Is Thriving
and Growing City. Finley Building Large
Boiler and Machine Works There.

Kansas, bleeding Kansas, the home of Carrie Nation, the breeding place for grasshoppers and statesmen, is at this moment superlatively the section to which oil men of the east are attracted, and it seems justly so, if all who go there are reaping the same prolific and profitable results the gentlemen who have gone from Lima are realizing.

The Standard is there under the name of the Prairie Oil & Gas Co., and that means a market for the production which is now quoted at \$1.28, three cents better than the price which is delighting south Lima and Indiana producers. The oil has a paraffine base, and has about the same specific gravity as the Lima product.

The Standard has its refinery, nine stills at Neodosha, but Independence seems to be the center of a district which promises the best for producers.

Independence is a town of 7,500, with good educational advantages, and many industries attracted by gas for fuel. John Finley is building a big boiler and machine shops along side the Missouri Pacific track, on a tract of land he purchased, and Board & Co., of Pittsburg, are putting up a similar plant adjacent to the Santa Fe railroad.

The oil bearing sand is reached between 1,100 and 1,200 feet. About 60 feet of 8 1/4 inch drive pipe are used and 1,050 ft of 5 1/4 inch casing. The former costs in that market, 51 cents, and the latter 53 cents.

Neely & Co., of this city, have sub-leased 4,000 acres from the Independence Gas Co. They have drilled one well in which is a good producer, and have several strings of tools running. Their acreage is all between Inde-

pendence and Bolton. Their next well in, will be on the Mc Gugin land, in section 16, Independence township, Montgomery county.

Reece and Hazelett, old Wood county operators, have a well good for 10 barrels on the Moyer farm, in section 4, same township.

In section 17, the New York Oil & Gas Co. have two wells on the Shornberger, known as the "Jew Forty," that are making 100 barrels.

Barnes & Co.'s No. 1, Fidler, is good for 25 barrels. Barnes while driving a team of mustangs to the lease last week, had a runaway, was thrown out, and had a leg broken.

The Independence Gas Co., has a fair producer in its Bolt, No. 1, Section 18. It's No. 1, Adkins in section 17, is doing 100 barrels. The same company has very heavy gas wells in section 21, 28, 29, 30, just south of its oil production.

Herring & Co.'s No. 1, Harrison, is good for 50 or more barrels, and their No. 1, Fidler, in section 11, is making a fine showing.

F. M. Aiken & Co., have four wells in sections 8 and 9, that are doing 250 barrels every day, and four others drilling. This company has 400 acres all of which looks good.

The Interstate Oil & Gas Co., operating about Peru, near the Indian Territory line, has 24 four producing wells out of 33. The production is small, but seems to hold well.

There seems in fact to be a wide spread oil and gas field. At Longton, in Elk county, there are a number of fair oil wells; and at Elk Falls, in the same county, there are good gas wells.

About Cherryvale, there is a nice production, and around Neodosha, there are wells 8 years old that are still doing 2 and 3 barrels. Most of these belong to Nickerson, of Indianapolis.

ence to teaching the faith. This is the first convention of the kind and is held, it is said, because the growth of Christian science throughout the country is felt to necessitate more systematic and uniform plans of instruction than have been thus far formulated.

CONTEST

At Van Wert Won by
the Lima Team.Score Stood Six to Nothing at
the Finish.Lima High School Foot Ball Team
Wins Its First Game on the
Gridiron—Laudick and Wit-
mer's Fine Work.

The Lima high school foot ball team played its first game at Van Wert Saturday. The boys were in good shape and showed by their game that they are made of the proper metal. The Van Wert team had beaten the crack team of Decatur the previous Saturday and thought that in Lima they would find an easy proposition. Karl Figley, a former high school student of this city, strengthened their team greatly and proved to be their star player.

In a hotly contested game the local high school foot ball team defeated the Van Wert boys by the score of 6 to 0. Jones who has been practicing full back with the Lima team, was not permitted to play by Van Wert. This left the local team in a weak condition as no other man on the team had practiced on that position. Jackson, a star half for the Lima team had to retire after the first down on account of a badly wrenched ankle. Outweighed fifteen pounds to the man, with only one regular back—Laudick; the other places being filled by substitutes—Kinsely and Thomas, the team went into the game against heavy odds.

The Game.

Laudick won the toss and chose to kick the ball. Van Wert taking the west goal. Shaw kicked to Van Wert's 30 yard line. Capt. Simons advancing the ball 5 yards, Black making a magnificent tackle. Van Wert made a 5 yard gain around right end; two more through left guard, but here lost the ball on a fumble. He was on his down that Jackson had his ankle hurt, and retired in favor of Thomas who had practiced with the team but two nights, but nevertheless held his own. Griffiths then made a sensational end run of 25 yards around left end and Laudick then followed with 10 more. Black made 5 more, but lost the ball on Van Wert's 10 yard line; Van Wert was unable to make any gain and were forced to punt; Griffith returned the ball 10 yards. By repeated end runs Griffith, Laudick and Witmer carried the ball to Van Wert's 5 yards line. Hadsell made a gain of 3 yards on a buck and Laudick followed by taking the ball over the goal line for the first touchdown; Simpson kicked a difficult goal and the score stood 6 to 0.

Van Wert kicked off to Lima's 25 yard line, Griffith being downed in his tracks. A trick play was tried but Lima lost 5 yards. Witmer regained the loss by a nice end run of 10 yards; Laudick then carried the ball 5 yards, and Black 1 yard; the ball was fumbled and gotten possession of by Van Wert.

Second Half.

Van Wert kicked to Lima's 25 yard line; Witmer gained 2 yards in an end run, Black made a backward pass to Laudick, who made 55 yards for a touch-down. The ball was brought back however, the referee claiming that it was not a proper play.

The feature of the second half was a sensational run of 40 yards by Witmer. The ball was in Van Wert's possession on Lima's 35 yard line when time was called.

Referee, Rummel, Lima; umpire, Smith, Van Wert; timer, Golly, Lima; O'Brien, Van Wert. Time 20-15 halves.

LAKE HURON
LASHED INTOA Perfect Fury by Storm Does
Great Damage to Shipping
Interests.

Port Huron, Mich., Oct. 26.—After drifting helplessly about in Lake Huron all night, the barge M. C. Whitney which had broken away from the steamer M. Syken, in the heavy north-west gale, on Lake Huron, Sunday night, went on the beach seven miles above Fort Gratiot, light at daybreak. The crew of five men took to the yawl and made for shore in the heavy sea. When the boat reached shallow water, it capsized and the cook, Frank Thompson, was nearly drowned. The Whitney is 151 feet long and is owned by M. Sikes, of Marine, Mich. The vessel is breaking up. A furious storm is raging on Lake Huron, and a large fleet is shelter here and at Sand Beach.

Of Typhoid Fever Was Carried From the House.

Fire Does Considerable Damage to the House Occupied by Frank Brown and Family.

About 9.45 o'clock yesterday morning the north side fire department was called to the home of Frank Brown and family, on north Jackson street, by an alarm from box 15, at Jackson street and Findlay road. The fire had originated in the roof of the house and had gained considerable headway before the department reached the scene. Mr. Brown's brother, John, was seriously ill in the house at the time, suffering from typhoid fever and was carried out of the burning building. The roof was burned off of the house and much damage was also done by water.
